States and Regions Are Working From Home More Post-Covid

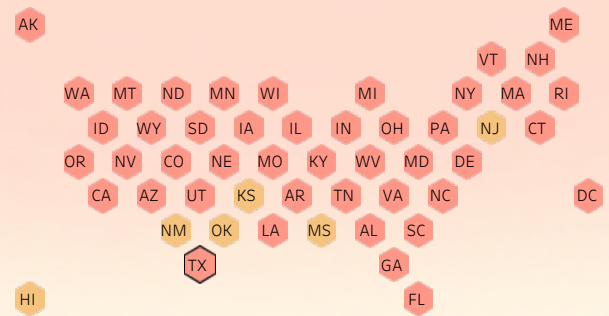

Has Covid impacted your morning commute?

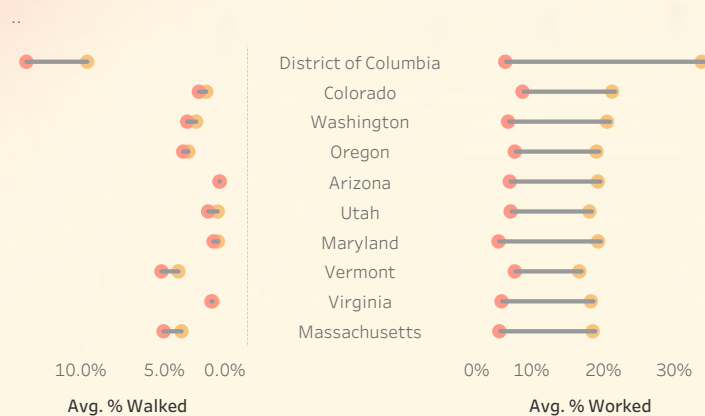

April 5th is National Walk to Work Day, so it's the perfect time to ask: *Are people walking to work more post-Covid?* Using data from the U.S. Census Bureau this dashboard examines trends in walking to work from 2018 to 2022, broken down by state. The findings show that Americans are walking to work less-- primarily because they are working from home more.
